SOFTWARE & WEB DEVELOPER

Innovative Computer Science graduate with expertise in Full-Stack development, cloud technologies (AWS, EC2), data optimization, & software design. Leveraging experience in innovative software to deliver high-impact tech solutions.

EDUCATION

McGill University – Bachelor of Science in Computer Science (Montreal, QC)

Anticipated Graduation 2025

- *Academics:* 3.35 / 4.00 GPA
- *Courses:* Data Science (B), Data Structures & Algorithms (B), Software Engineering (B+), Web Development Principles (A-)
- *Software Specialties:* CSS, HTML, JAVA, JavaScript, Python, SQL and Unix

PROFESSIONAL EXPERIENCE

Amazon – Software Developer (Fall Intern)

Aug 2024 – Nov 2024

- Engineered scalable back-end services and APIs, reducing data processing times by 40% and improving operational efficiency across multiple teams.
- Leveraged AWS technologies (S3, Lambda, EC2) to deliver highly reliable applications, achieving 99.9% uptime during high-traffic periods.
- Streamlined Agile team workflows by implementing automated testing pipelines, accelerating deployment cycles by 20%.

Inspur – Software Developer (Summer Intern)

Jun 2024 – Aug 2024

- Enhanced query efficiency by 23% to enable faster decision-making for a database with >1,000 enterprise records.
- Restructured data integrity protocols, reducing redundancy by 15%, ensuring compliance with data standards.
- Delivered actionable insights by partnering with analysts to address key operational challenges, expediting resolution.

HSoft – Web Developer (Summer Intern)

May 2023 – Aug 2023

- Developed a responsive onboarding portal to reduced training time by 30%, enhancing productivity for >100 employees.
- Consolidated resources into a content repository, improving resource accessibility and decreasing search times by 25%.
- Improved website accessibility and user experience by designing intuitive interfaces with modern web technologies (HTML5, CSS3, JavaScript).

PROJECT EXPERIENCE

Online Meeting Booking Platform – Principles of Web Development

Fall 2024

- *Technologies:* HTML, CSS, JavaScript, PHP & SQL.
- *Impact:* Created a web app platform which can be by McGill students for booking meetings, integrated with Zoom.

Brick Breaker Game – Computer Systems Lab

Winter 2024

- *Technologies:* Assembly, OpenGL: Classic game with optimized performance and graphical enhancements.
- *Impact:* Integrated cover art and visuals with a teammate.

Lab Attendance Management – Intro to Software Systems

Winter 2021

- *Technologies:* Unix, C, HTML; Command-line app to automate lab attendance tracking and reporting.
- *Impact:* Improved accuracy by 25%, reducing errors and administrative workload.

ADDITIONAL INFORMATION

Associations: Competitive Programming Club & McGill Chess Club

Interests: Games of Strategy, Instruments (Piano), Personal Fitness, Pet Care (raising animals)
